

June 13, 2008

IMPORTANT NOTICE

Dear Ewing Street Neighborhood Residents:

A neighborhood meeting will be held on Thursday, June 26, 2008 to discuss the planned Improvements to Ewing Street between Valley Road and Franklin Avenue. The meeting has been scheduled for 7:00 p.m. in the Main Meeting Room of the Princeton Township Municipal Building located at 400 Witherspoon Street. All interested residents are invited to attend.

The items to be discussed at the meeting include the construction schedule and details of the planned improvements for the construction project, which includes drainage and sanitary sewer improvements; roadway repairs and resurfacing, Belgian Block curbing installation, sidewalk installation and miscellaneous other work.

Representatives from Top Line Construction, the Township's contractor, the Township Engineering Department, the Township Police Department, the Princeton Sewer Operating Committee and the Township Arborist will be available to discuss the project and answer any questions you may have.

Residents are advised that the Township will be imposing a 5-year moratorium on any street openings once the work is completed. Therefore, if you to plan to upgrade or install new utility services such as gas, water, electric, etc., you should contact the respective utility company at this time to make the necessary arrangements.

To assist in getting information to residents of Princeton Township, the Township website hosts project-specific web pages that are updated regularly with important notices, suggested travel routes and other information to reduce the temporary inconvenience associated with each project. The road project webpage can be found at http://princetontwp.org/road_projects_main.html. From there, each specific project can be found.

If you have any concerns or questions prior to the meeting, please contact either myself or Anthony Soriano, Engineering Assistant, at 609-921-7077.

I invite you to attend this meeting to view the proposed improvement plan and to discuss any concerns you may have regarding this project.

Sincerely,

Robert V. Kiser, P.E.
Township Engineer

RVK/cc

c: Phyllis L. Marchand, Mayor and Township Committee
